City Futures.

Where Next.....

World population 'to hit 9.7bn by 2050'

**The world urban population
in 2050 could grow by
2.1 Billion**

**The same as building
Manchester
925 times**

More People

More Old

More Young

More Homes

More Needs

More Urban

More transit, more infrastructure, more places, more of this everywhere....

**By 2040 the population of
Greater Manchester will
exceed**

3 Million

**A further
200,000 homes will be
needed & over
180,000 new jobs created**

The Future is:

**Less about power of nations;
More about the power of
Cities & Metro regions.**

Competitive Metro Regions

Manchester: A Spacious Metropolis

Cities are mapped at the same scale

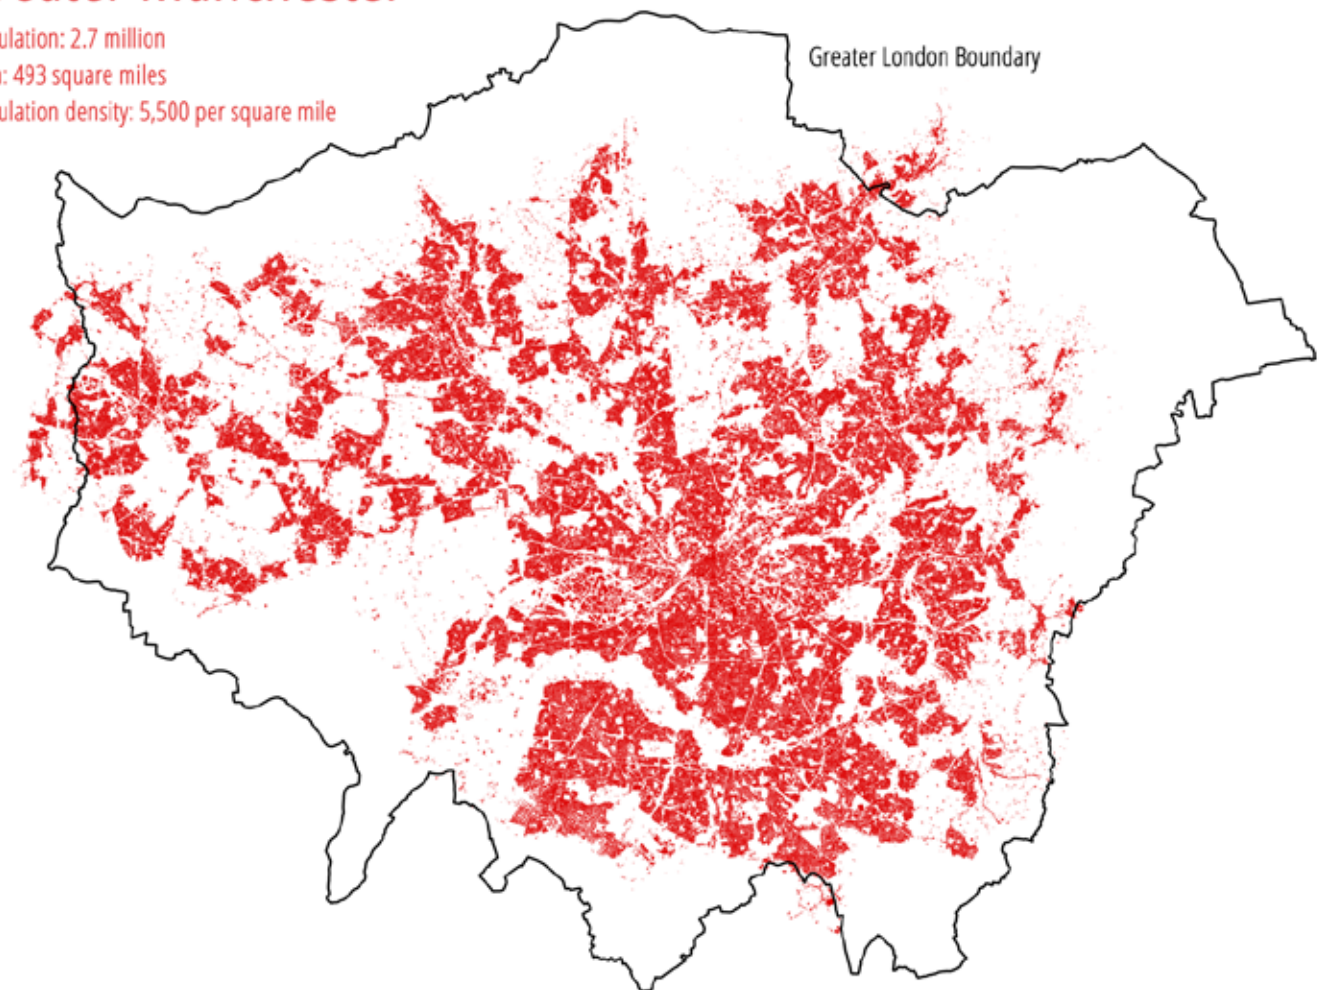

Greater London

Population: 8.4 million
Area: 607 square miles
Population density: 13,800 per square mile

Greater Manchester

Population: 2.7 million
Area: 493 square miles
Population density: 5,500 per square mile

10 miles

Competitive Cities

Evaluating Successful Places

Success Criteria for Great Cities

	Average correlation	Grand total	Intellectual capital and innovation	Health, safety and security	Ease of doing business	Technology readiness	Demographics and livability	Lifestyle assets	Economic clout	Transportation and infrastructure	Cost	Sustainability

Spotlight Development: The Value of Placemaking

2016

RAISING THE GAME

Early investment creates better places and delivers higher returns

LAND VALUE UPLIFT

Long-term vision and partnership approach is needed

CASE STUDIES

Alconbury Weald,
Heyford Park, Poundbury

savills.co.uk/research

The Future is about:

Power of Cities.

Cities working harder.

Making Cities better.

The Future is about **people**:

Quality time.

Quality connection.

Quality place.

Great places

Place led

Integrated
placemaking

Healthy
streets

Connected
environments

Urban
smart

Active
and vital

Place Led

Context Driven, locally referenced and distinct.

A person's hands are holding a white rectangular sign. The sign features the text 'I ❤️ MCR' in a bold, black, sans-serif font. The heart symbol is a solid red color. To the right of the 'MCR' text, there is a small, circular logo with the letters 'tak' inside. The background is a blurred crowd of people, suggesting a public event or protest.

**Genius Loci – understand
the context, establish a
local narrative, define
a sense of place**

A wide-angle photograph of a large group of people picnicking on a grassy lawn in a park. In the background, a tall, multi-story apartment building is visible on the left, and a dense line of trees runs across the middle ground. A construction crane is visible in the sky above the trees. The foreground shows several groups of people sitting on blankets, eating, and talking. A bicycle is parked near one of the groups. The overall atmosphere is relaxed and communal.

**Anchor proposals
into existing built/
lived environment**

A close-up photograph of a mosaic on a cobblestone floor. The mosaic depicts a bee with a yellow and black striped body, black legs, and a black head with antennae. The bee is centered in the frame, and the text is overlaid on its body.

**Community focus and
defined character –
strong sense of purpose**

A woman with long dark hair is smiling and holding a heart-shaped sculpture made of glowing, tangled light strands. She is standing in front of a dark background filled with out-of-focus, colorful bokeh lights, suggesting a night festival or city lights. The text "Distinct attractive and appealing places" is overlaid in white, bold, sans-serif font across the center of the image.

**Distinct attractive and
appealing places**

Integrated Placemaking

An collaborative approach to design.

To achieve highest quality of place:

Be truly
collaborative

Deep
understanding
of issues and
opportunities

Deliverability –
aspirations and
performance

Healthy Streets

Safer, easier and appealing environments,
encouraging physical and mental wellbeing.

1 in 6

1 in 6 Londoners
don't leave the
house on any
given day

8 in 10

8 in 10 children not
meeting minimum
activity requirements

Healthy Street Checklist

After

Before

Pedestrian First

**Reconcile traffic
and pedestrians
/ cyclists**

**Provide increased
& improved
public realm**

**Space to be
active – walking
and cycling**

**Stimulate curiosity &
encourage exploration**

**Opportunity for
human
interaction**

**Spaces for
communities to
connect**

Save **£1.7bn**

If all Londoners walked or cycled for 20 minutes a day, this would save £1.7bn in NHS treatment costs over 25 years

Type 2 diabetes

Connected environments

All development is Transit Orientated.

Not this anymore

Transit Orientated Communities

High Quality pedestrian
focused public realm

Optimised interchange between
transport modes

150+ People per HA

Supporting increased density +
of transit hubs & promotion of
brownfield sites

Cascading social and
economic benefits.
Catalysts for regeneration

Urban smart

Connecting Technology and Design
to improve liveability.

**Pedestrian friendly
streets**

Bus stops

**Encourage
electric car**

Dedicated cycle lanes

**Reduce lanes widths.
Improve pedestrian
environment.**

**Add green
infrastructure.**

Improved wayfinding.

**Enhanced Existing
Streets**

**Shuttle Bus stops converted to
AV stops**

Dedicated lanes for AV

**Introduce Automated
Vehicles.**

**Reduced congestion
and smoother traffic
flow.**

**Reduce private parking
requirements in city
core.**

**Move towards a 'Car-
Lite' City**

Increased Public Realm

Single lane carriageways

Further improved cycle facilities

Shared lane for AV and cars.

More space for pedestrians.

More space for commercial/Leisure/retail activity.

Further reduce parking requirements in city core.

Pedestrian Centric City

1000 Ha

used by parking in
Manchester

Introduction of AV to Manchester could generate:

50%

50+% reduction
in city parking
spaces

10k

Potential for 10's of thousands of new
homes + new city squares, parks and
playgrounds in Manchester

Active and vital

Economic and Social Capital.

Vibrant Community Spaces

Flexible Environments

Vibrant spaces for users to experience face to face interaction

Adaptable, 'with purpose' spaces for community use

Public Realm to support mixed-use regeneration with retail, social and health infrastructure incorporated

+40%

increase in
footfall

-17%

reduction in
empty units

+60%

increase in spend
when walkable
environments
instigated

+30%

30% increase in
property prices
and rents

Snow Hill Urban Realm Masterplan: An Urban Community

Snow Hill Urban Realm Masterplan: 4000 Residential units proposed

Snow Hill – The Brief

- Respond to changing urban lifestyles.
- Significant enhancements to public realm.
- Refined vehicle movements in the area.
- Enhanced public transport interchange.
- Add Value.
- Attract Inward Investment.

A Place Led Agenda

- A project about community.
- A project about streets.
- Streets = 80% of public space in our cities.
- Move away from vehicle focused to 'pedestrian first' streets.
- Creating a public realm that responds to the demands of a modern city.

Spaces for a community...

- Walkable and safe.
- Accessible to everyone.
- Places to stop, gather & connect.
- Referencing local physical, cultural and social identities.
- Enhances local economic development.

and accommodate city traffic.

Understanding the Place

Street Width

Street Surface Material

Green Infrastructure

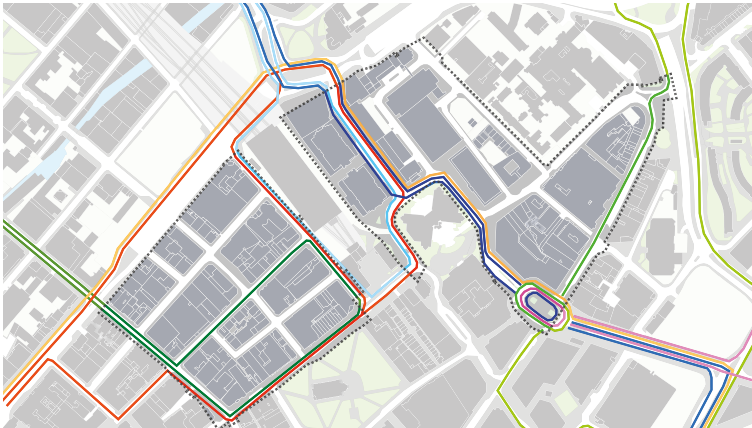

Pedestrian Movement

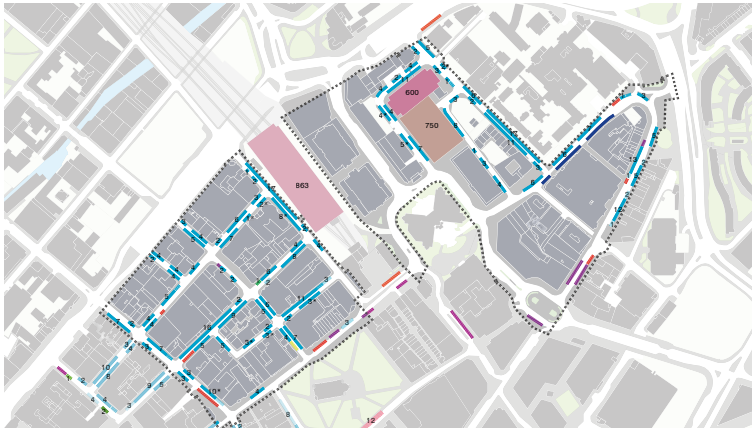

Street Use

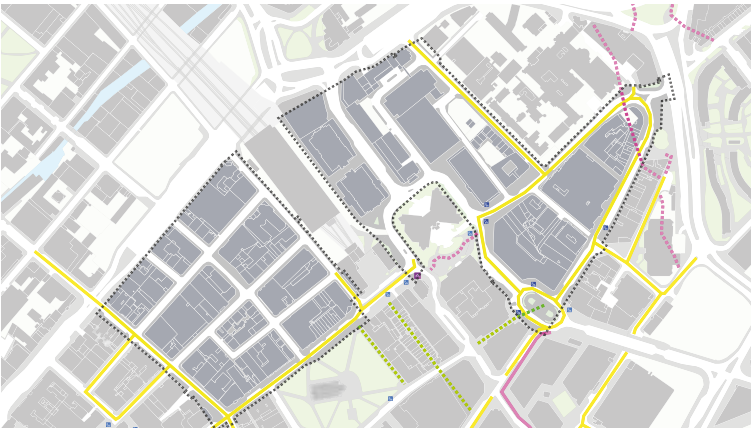

Footways

Bus and Sprint 3 Existing Bus Routes

Parking

Bus and Sprint 2 Route

Pedestrian Movement 2 Movement

Existing & Proposed Speed Limits

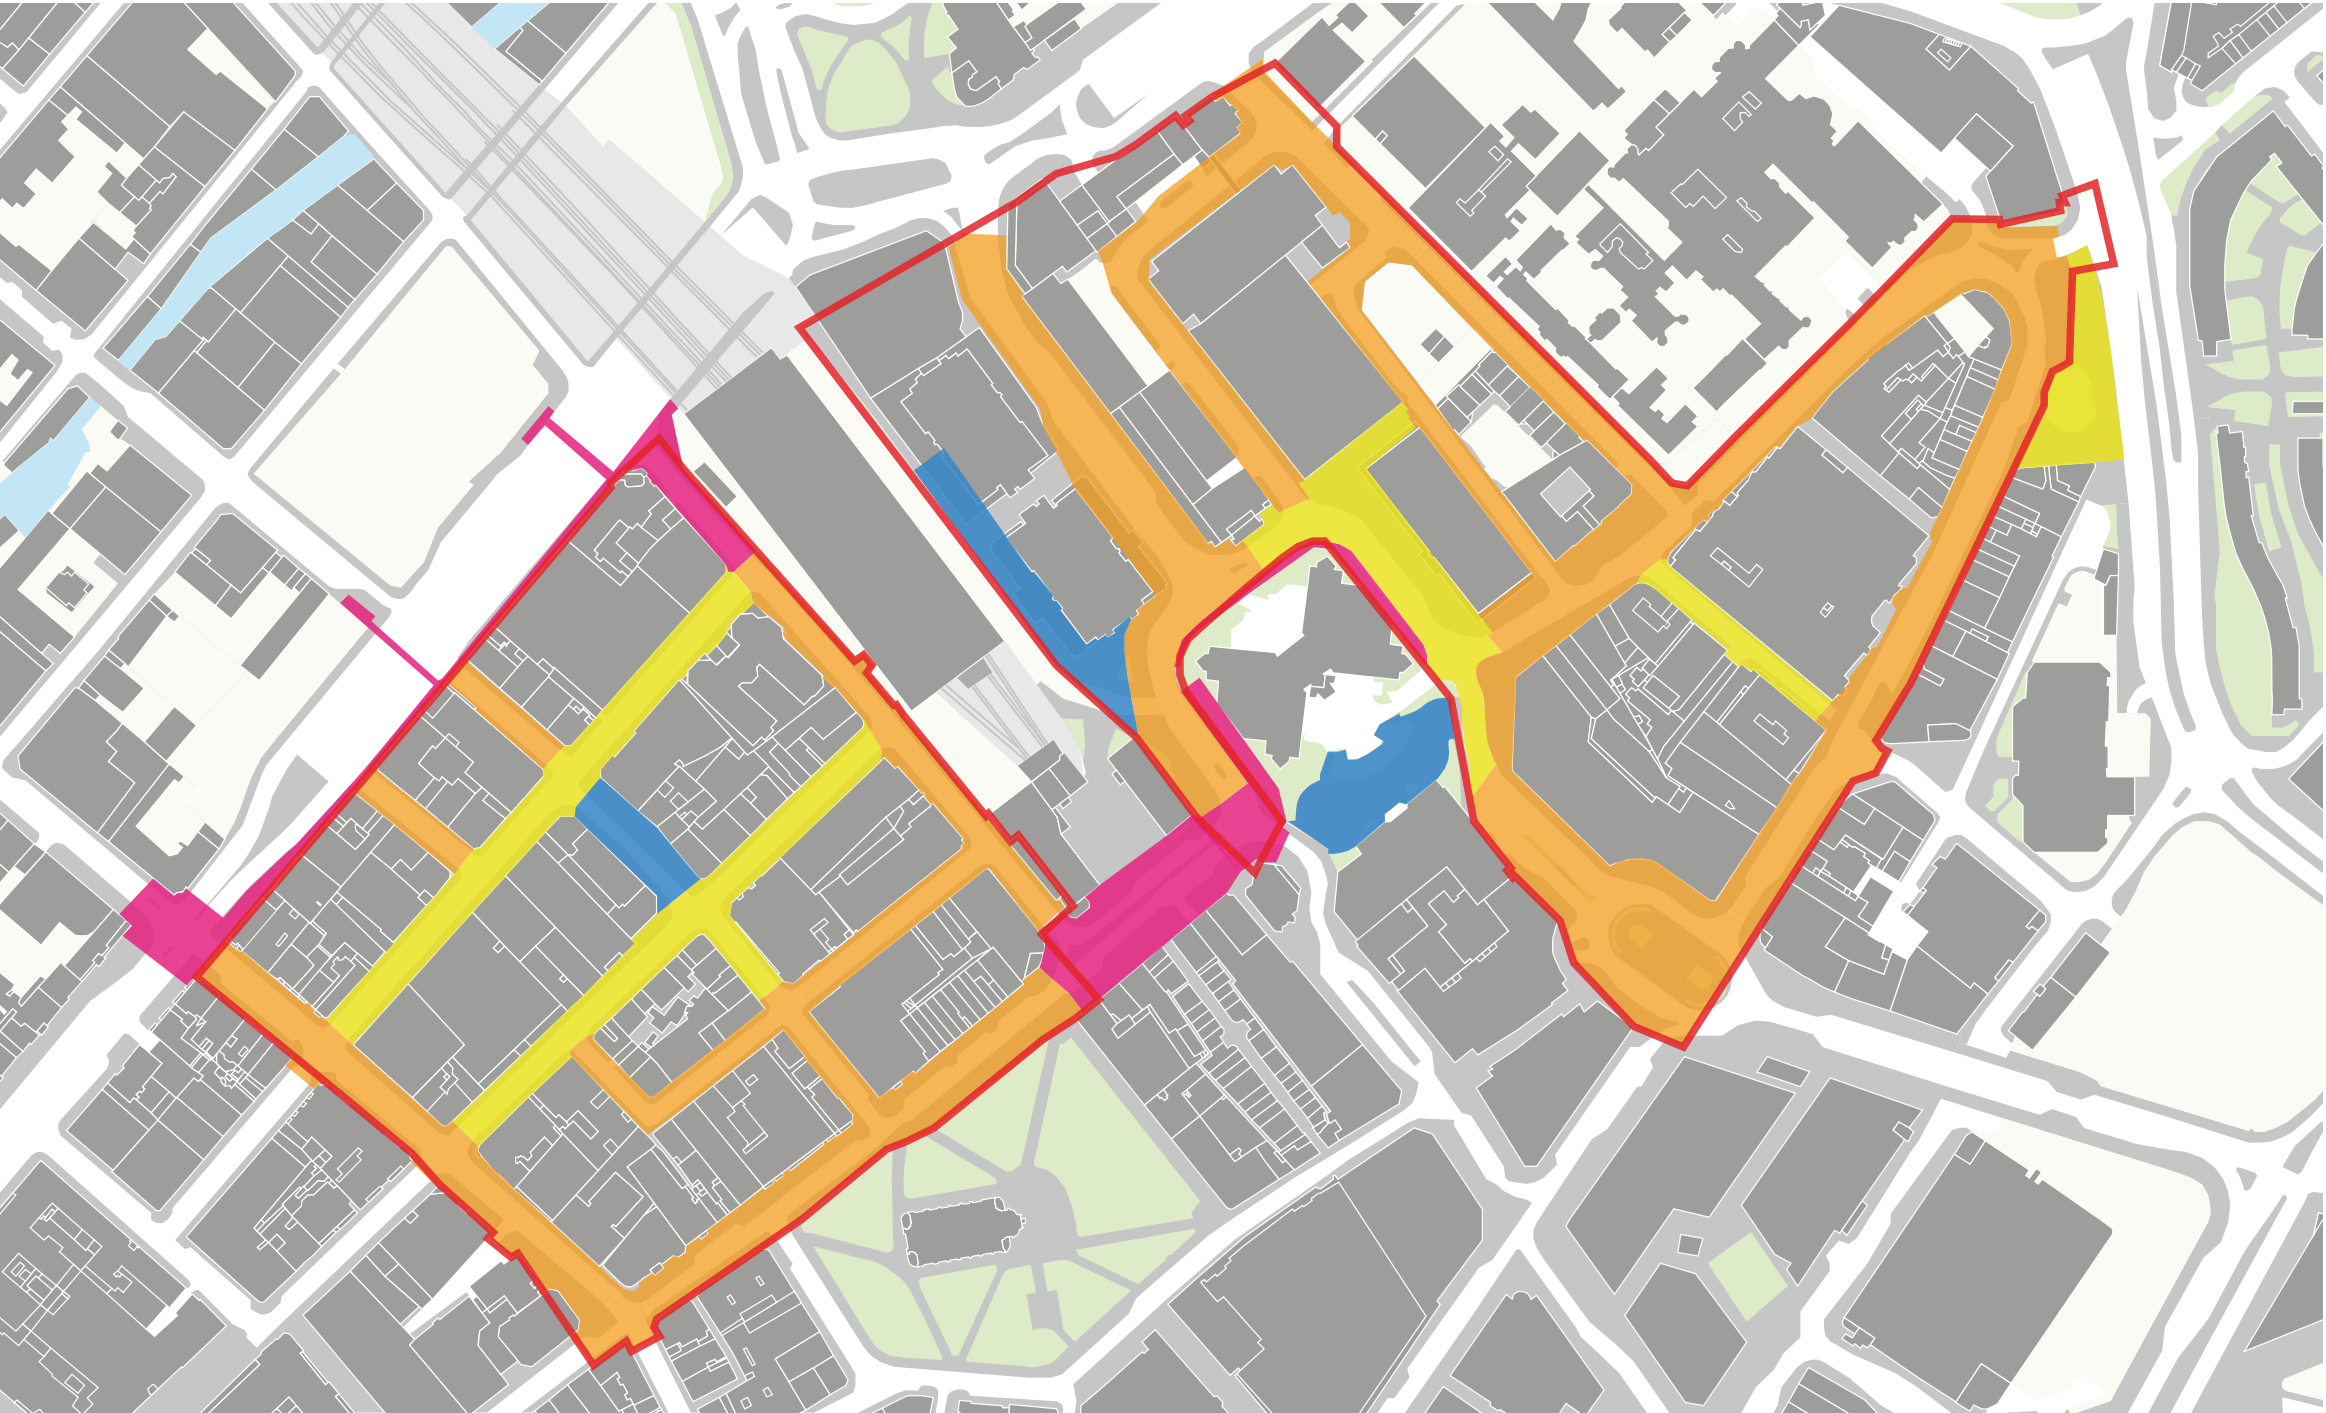

Heritage

What we found

- Highways character dominant - pedestrians marginalised.
- Very limited 'staying/stopping' spaces.
- Traffic and parking dominates.
- Movement for cyclists poor.
- No commercial use of street.
- Devoid of Green Infrastructure.

How it made us feel: Emotive Heatmapping

Key:

- Feels unsafe/unpleasant/physically difficult to access
- Can be uncomfortable/feels safe away from conflict points
- Feels safe and comfortable
- Pleasurable, attractive environment
- High quality - space is a draw in itself

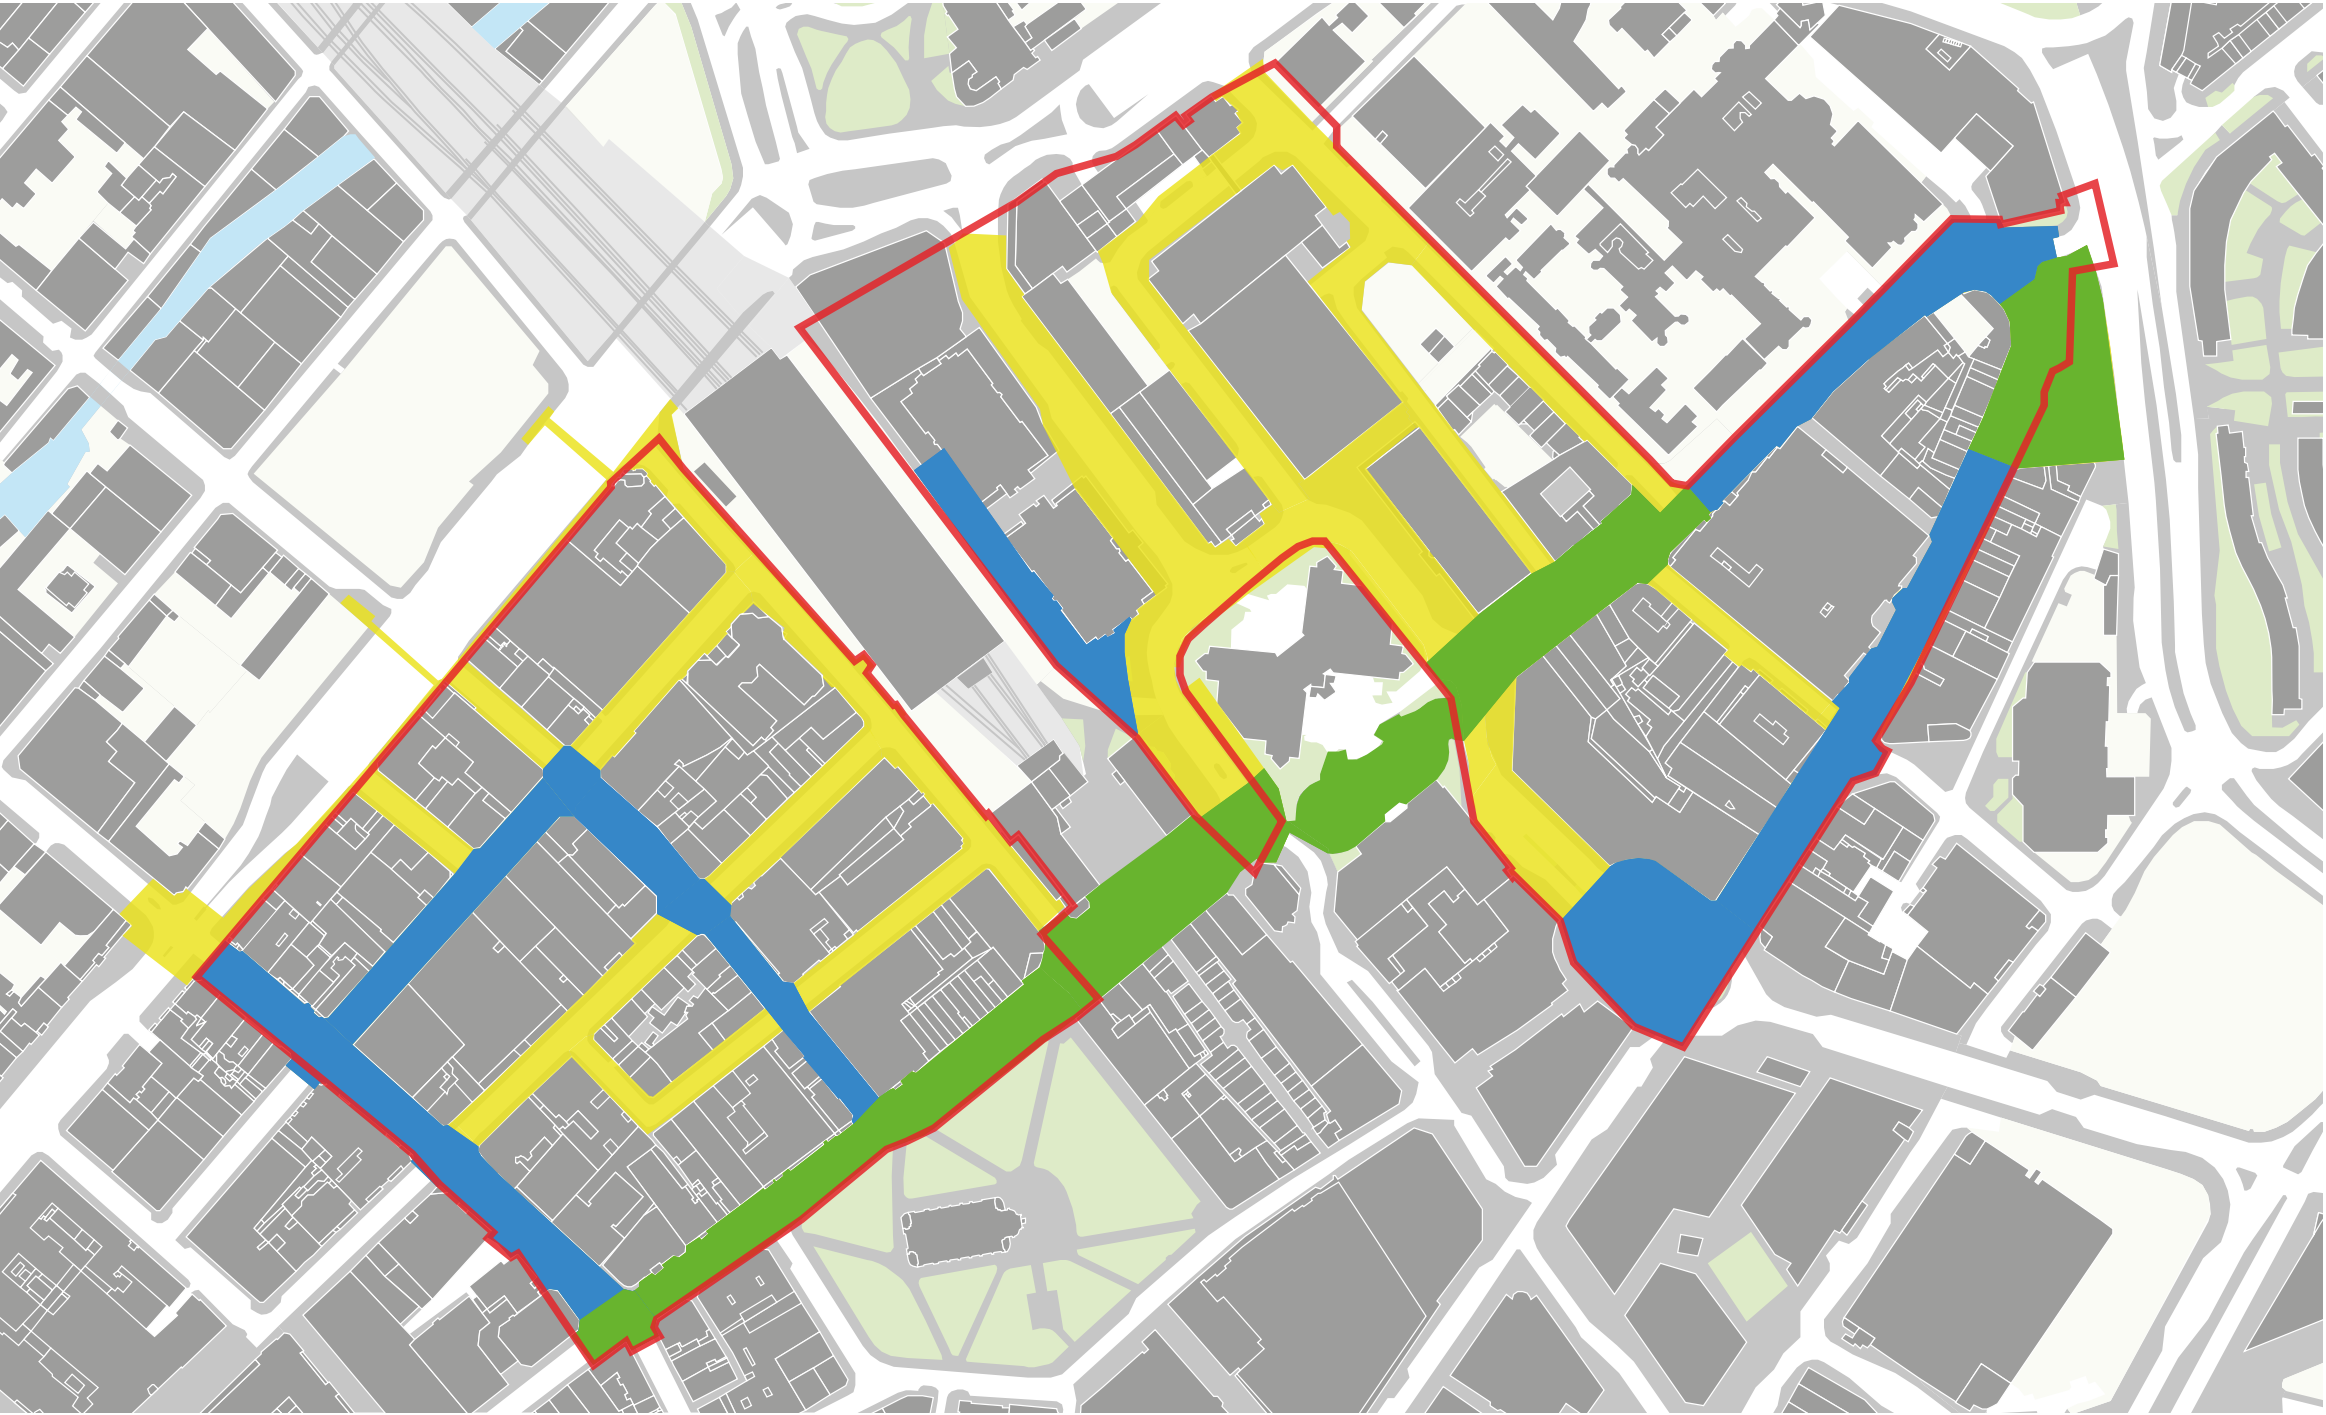

Findings:

Generally perception is of uncomfortable quality.

Areas of unsafe quality identified.

No areas of high quality identified.

How we see the future

- Key:**
- Feels safe and comfortable
 - Pleasurable, attractive environment
 - High quality - space is a draw in itself

Aims:

Ensure minimum safe and comfortable

Key spine is:

Minimum pleasurable/attractive

+50% High quality

Design Goals

- A place for the community.
- Prioritise pedestrians.
- Introduce 'staying/stopping' spaces.
- Consider street usage and provide more space & comfort for pedestrians.
- Reduce on-street parking.
- Better movement for cyclists.
- Provide setting for commercial street use.
- Green every street.

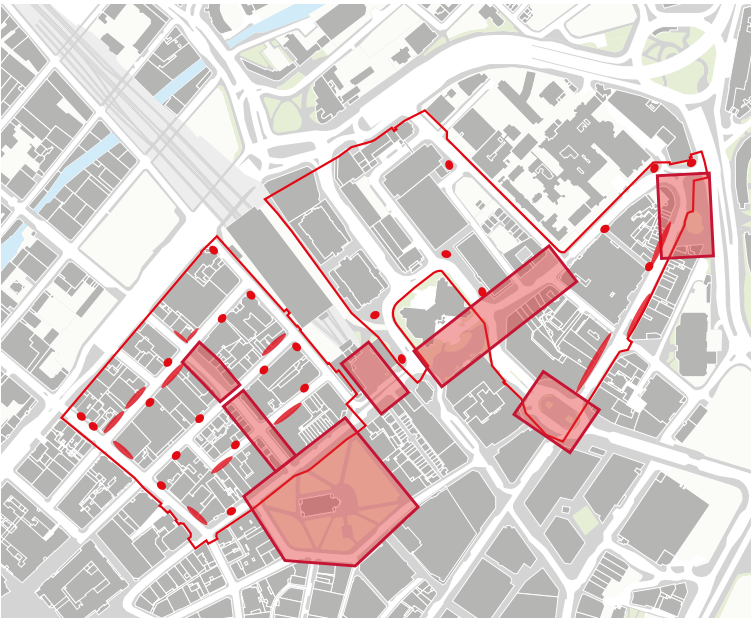

Collaborative Concepts

Gateways

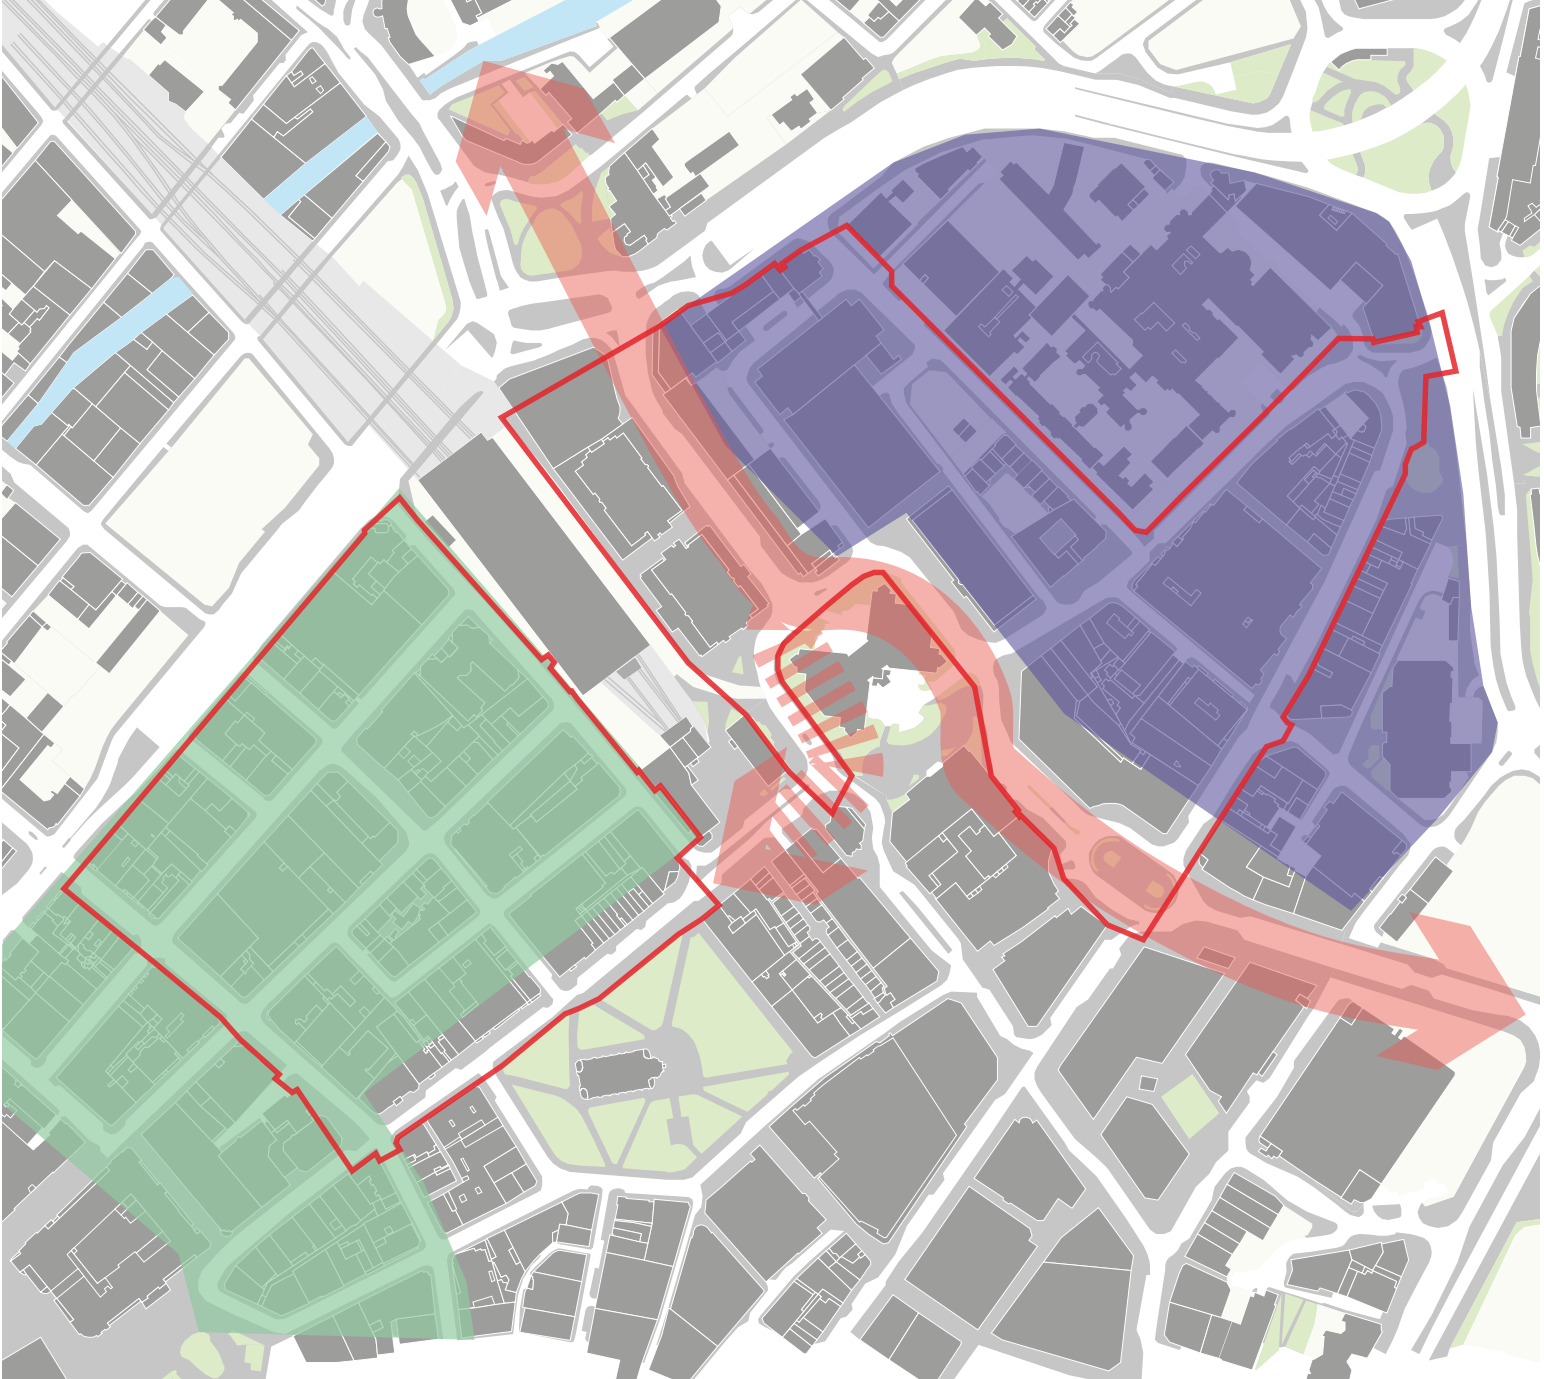

Key Pedestrian Movement

Pedestrian Stopping

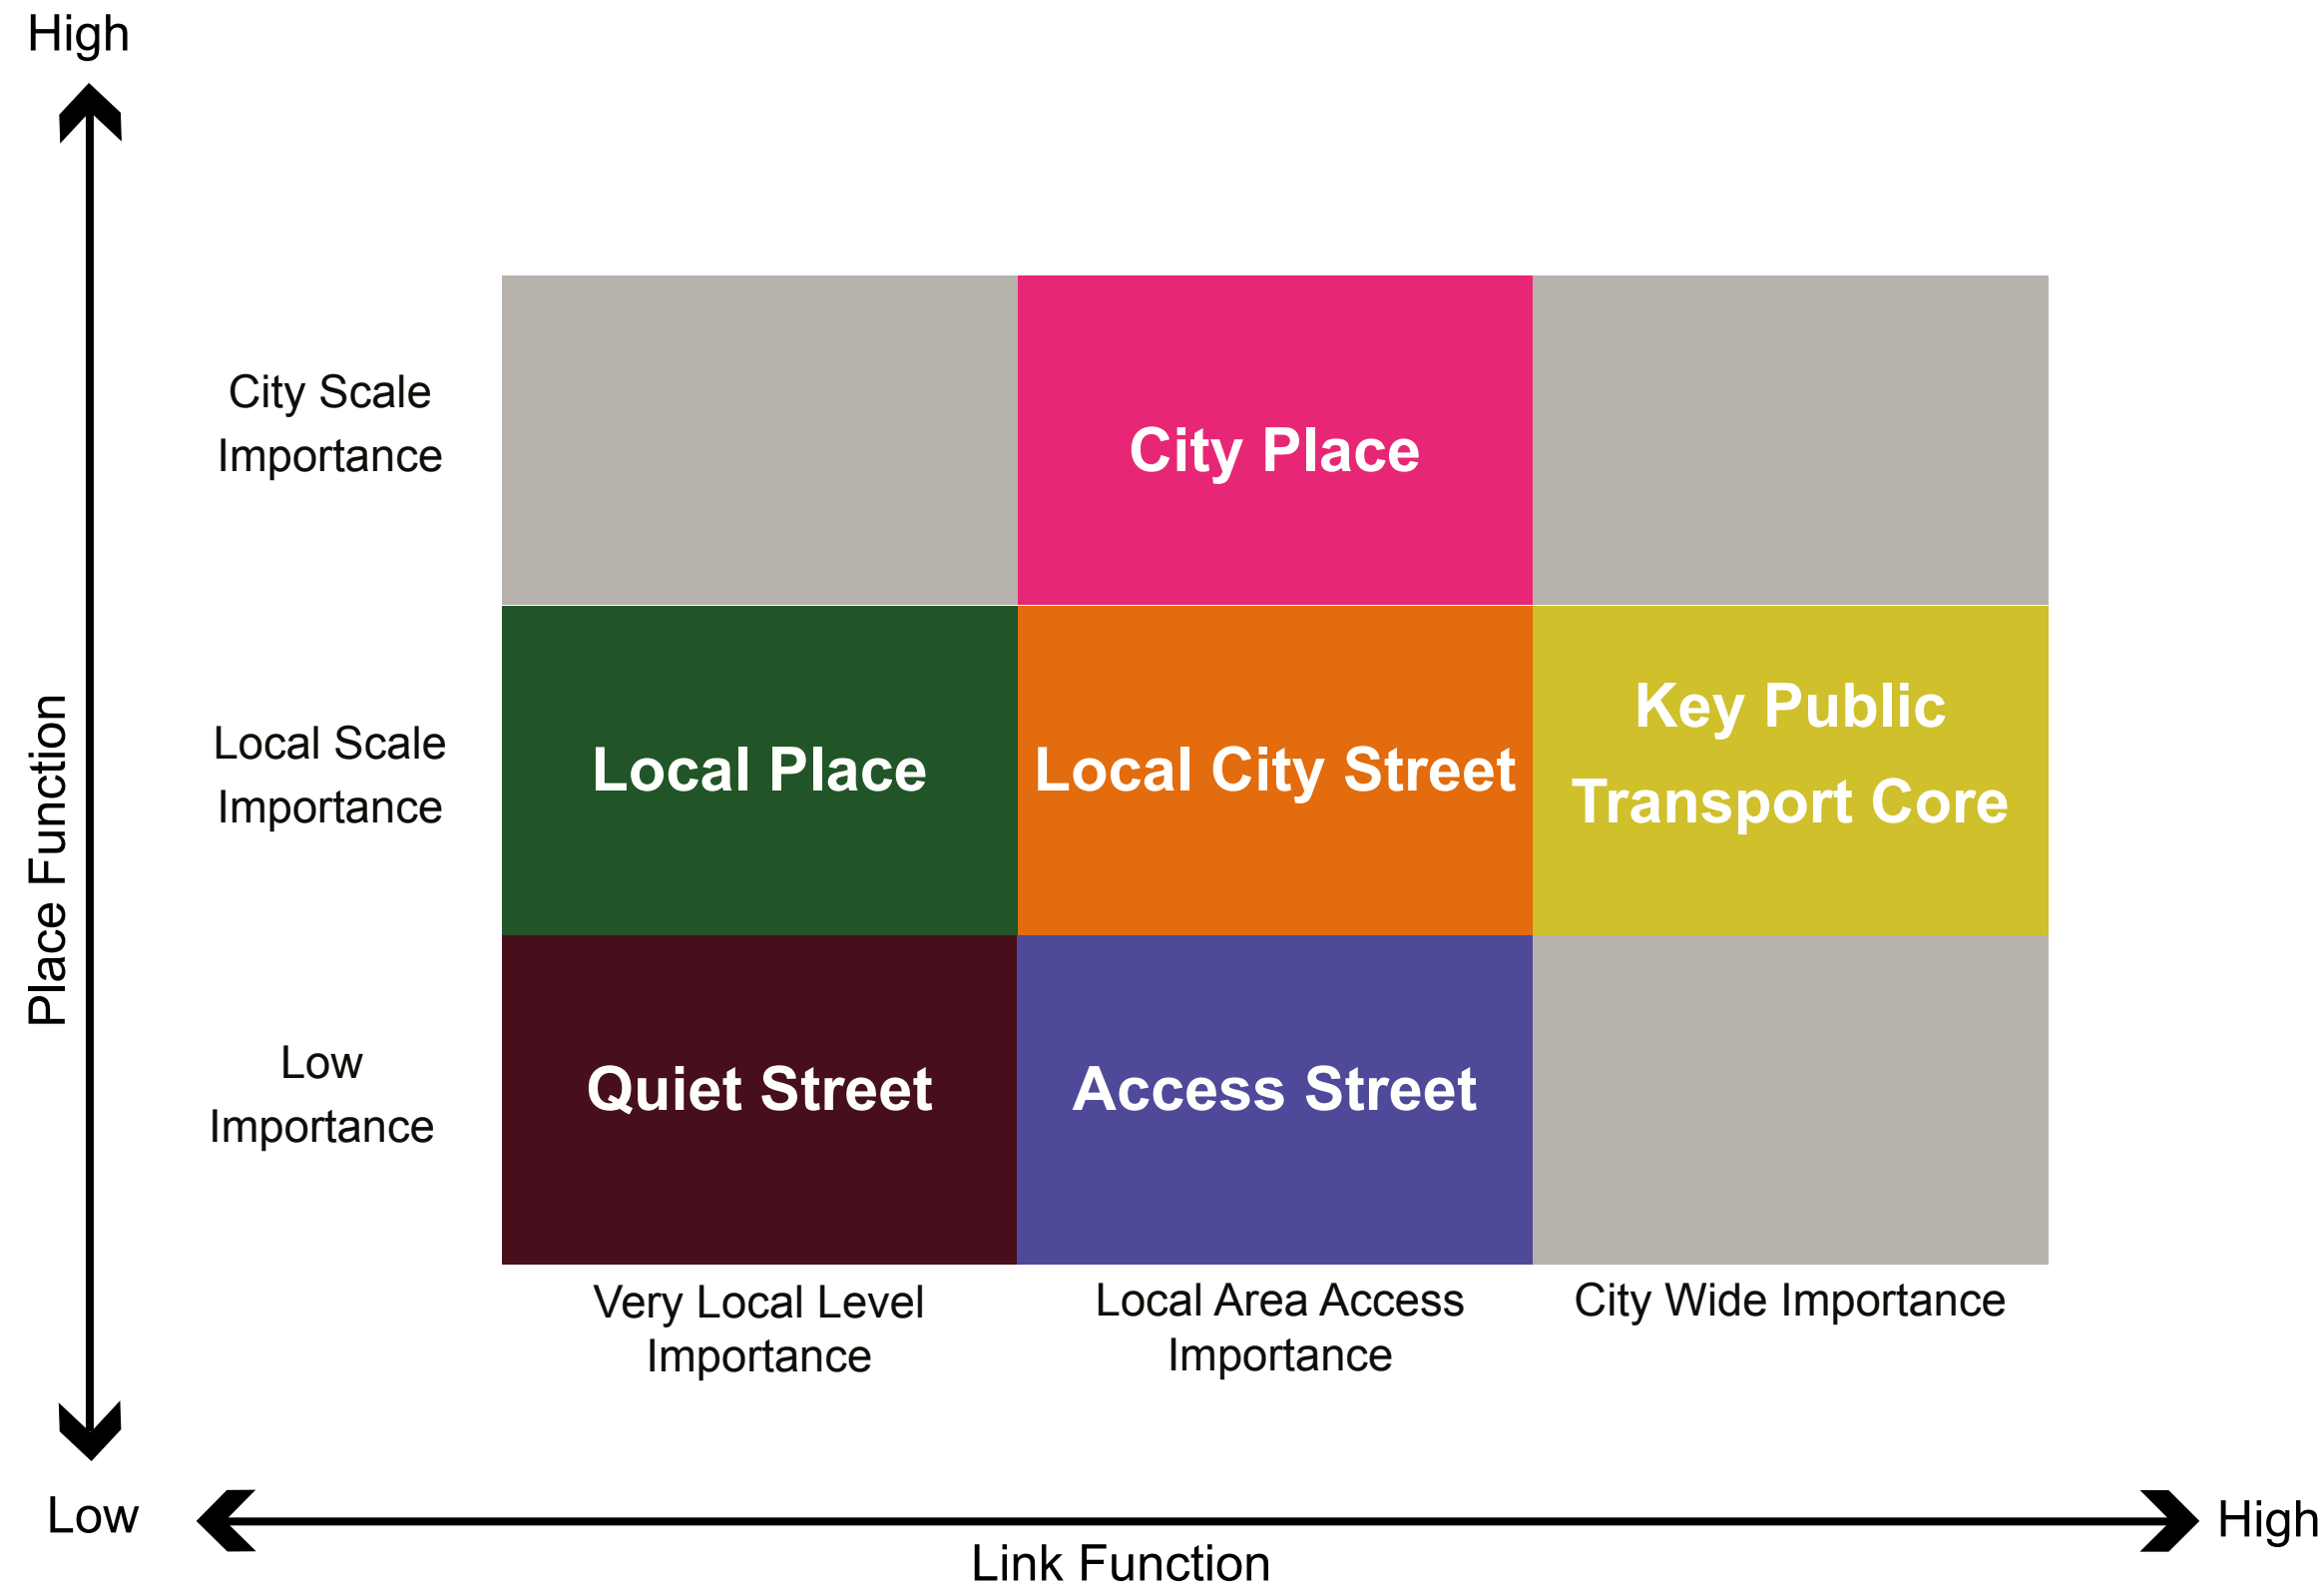

Green Infrastructure

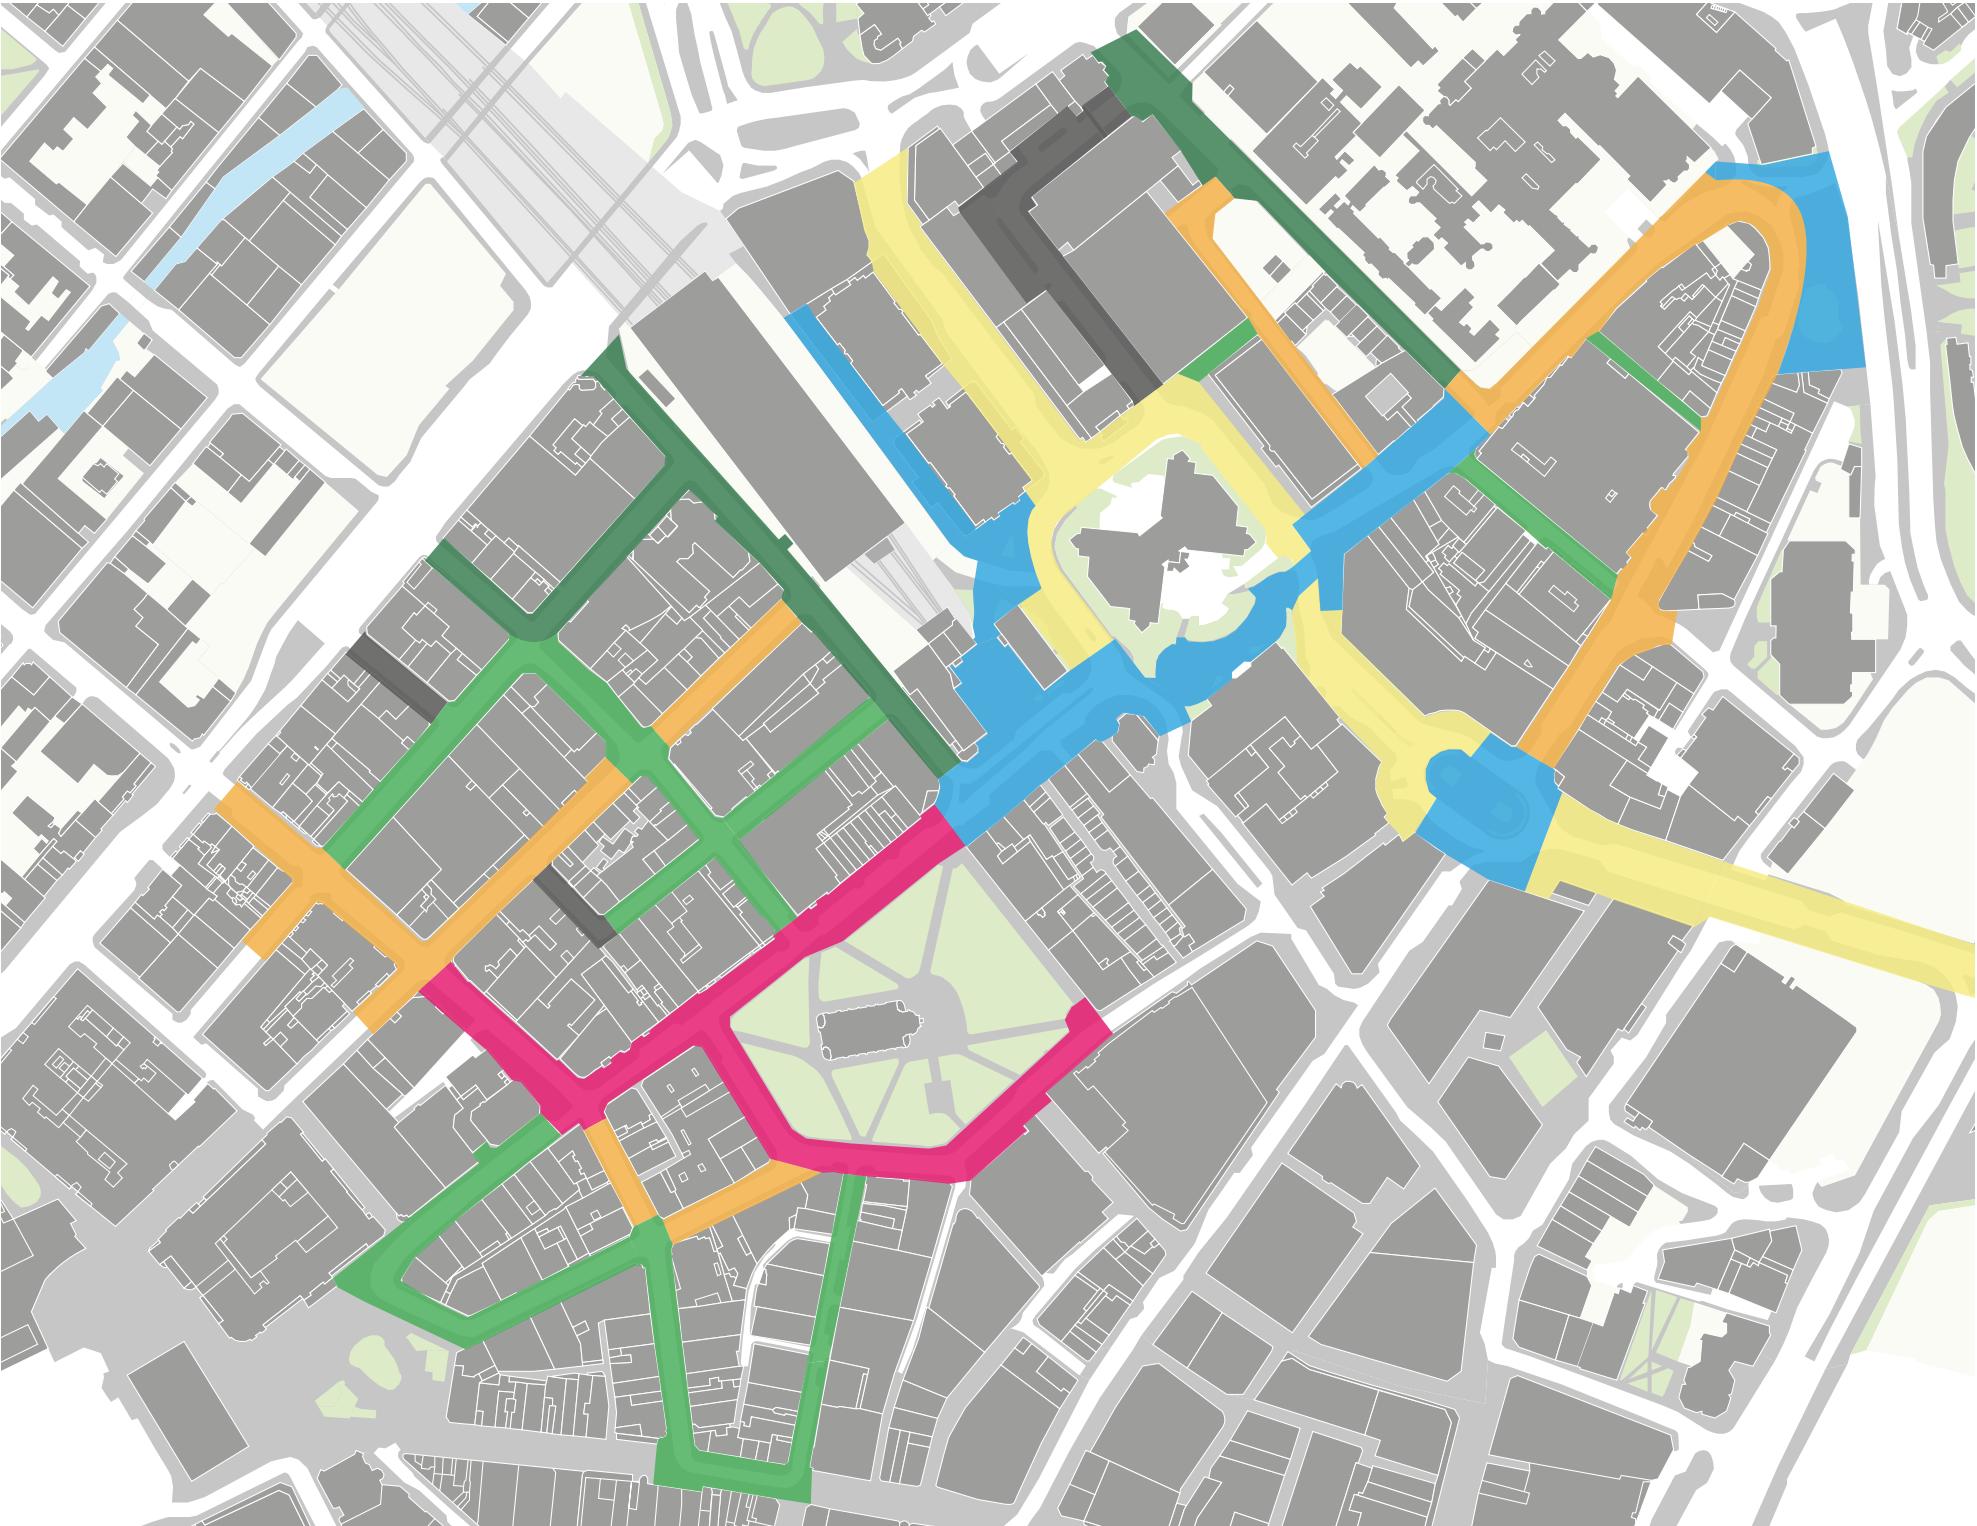

Traffic Management

Typologies: Role and Categorisation

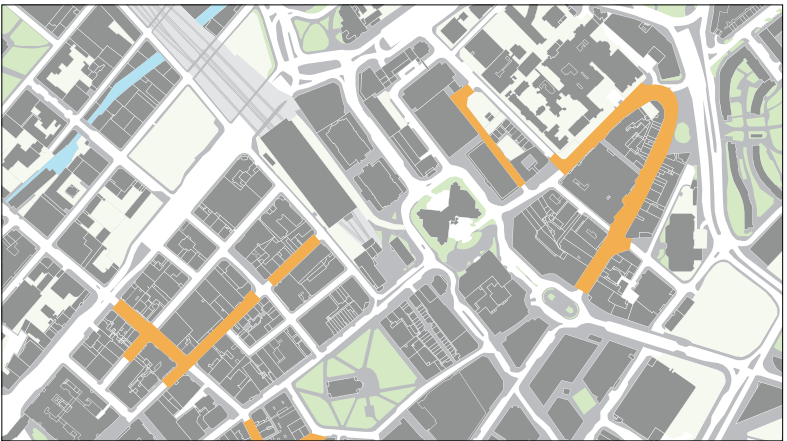

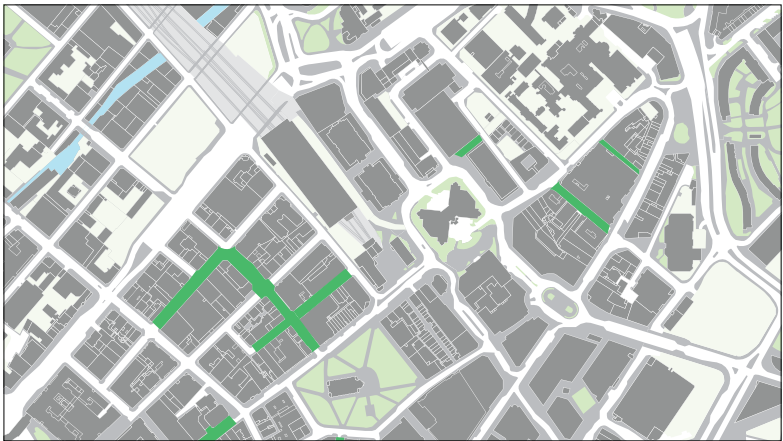

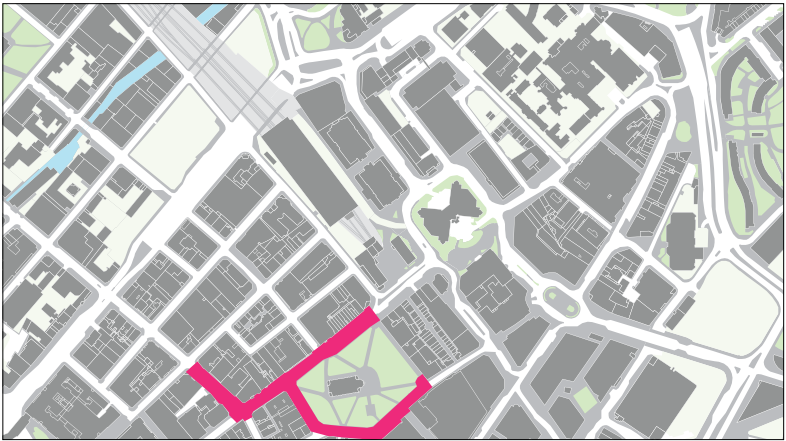

Typologies: Public Realm Structure and Hierarchy

- Key:**
- City Square
 - City Place
 - Local Place
 - Local City Street
 - Access Street
 - Quiet Street
 - Key Public Transit Core

Typologies: Brief and Character

Attributes			
------------	--	--	--

<p>Place</p> <ul style="list-style-type: none">• The space is delightful and has the highest quality public realm including features and activity that make it a city destination. <p>Link</p> <ul style="list-style-type: none">• Key pedestrian and cycle hub within the city linking several through routes as well as being a destination to meet and gather.

<p>Place</p> <ul style="list-style-type: none">• Exemplar civic locations - unifying pattern/ materiality creates a single space <p>Link</p> <ul style="list-style-type: none">• Key corridor for public transport.• Key pedestrian and cycle links that are direct and good quality.
--

<p>Place</p> <ul style="list-style-type: none">• Pedestrian Priority Street is high quality, attractive, pleasant and comfortable to walk and cycle in, with wayfinding made easy. <p>Link</p> <ul style="list-style-type: none">• Vehicle volumes and speeds are very low (10 to 20mph) limited and designed out by street activity.

<p>Place</p> <ul style="list-style-type: none">• Street use is carefully considered to ensure redistribution towards pedestrians. <p>Link</p> <ul style="list-style-type: none">• Private vehicle access is permitted at all times.• Vehicle speeds are self-enforcing 20mph.
--

Highways Goals

- Two way = 6.0m (Bus – 6.5m)
- Level surface areas - segregated with corduroy & no formal segregation.
- Kerbed areas = kerbs 65 mm.
- Kerb lines set to reflect carriageway width - parking / planting / seating in paving zone.
- Decluttered - every piece of street furniture needs to be justified. ***If in doubt leave it out...***

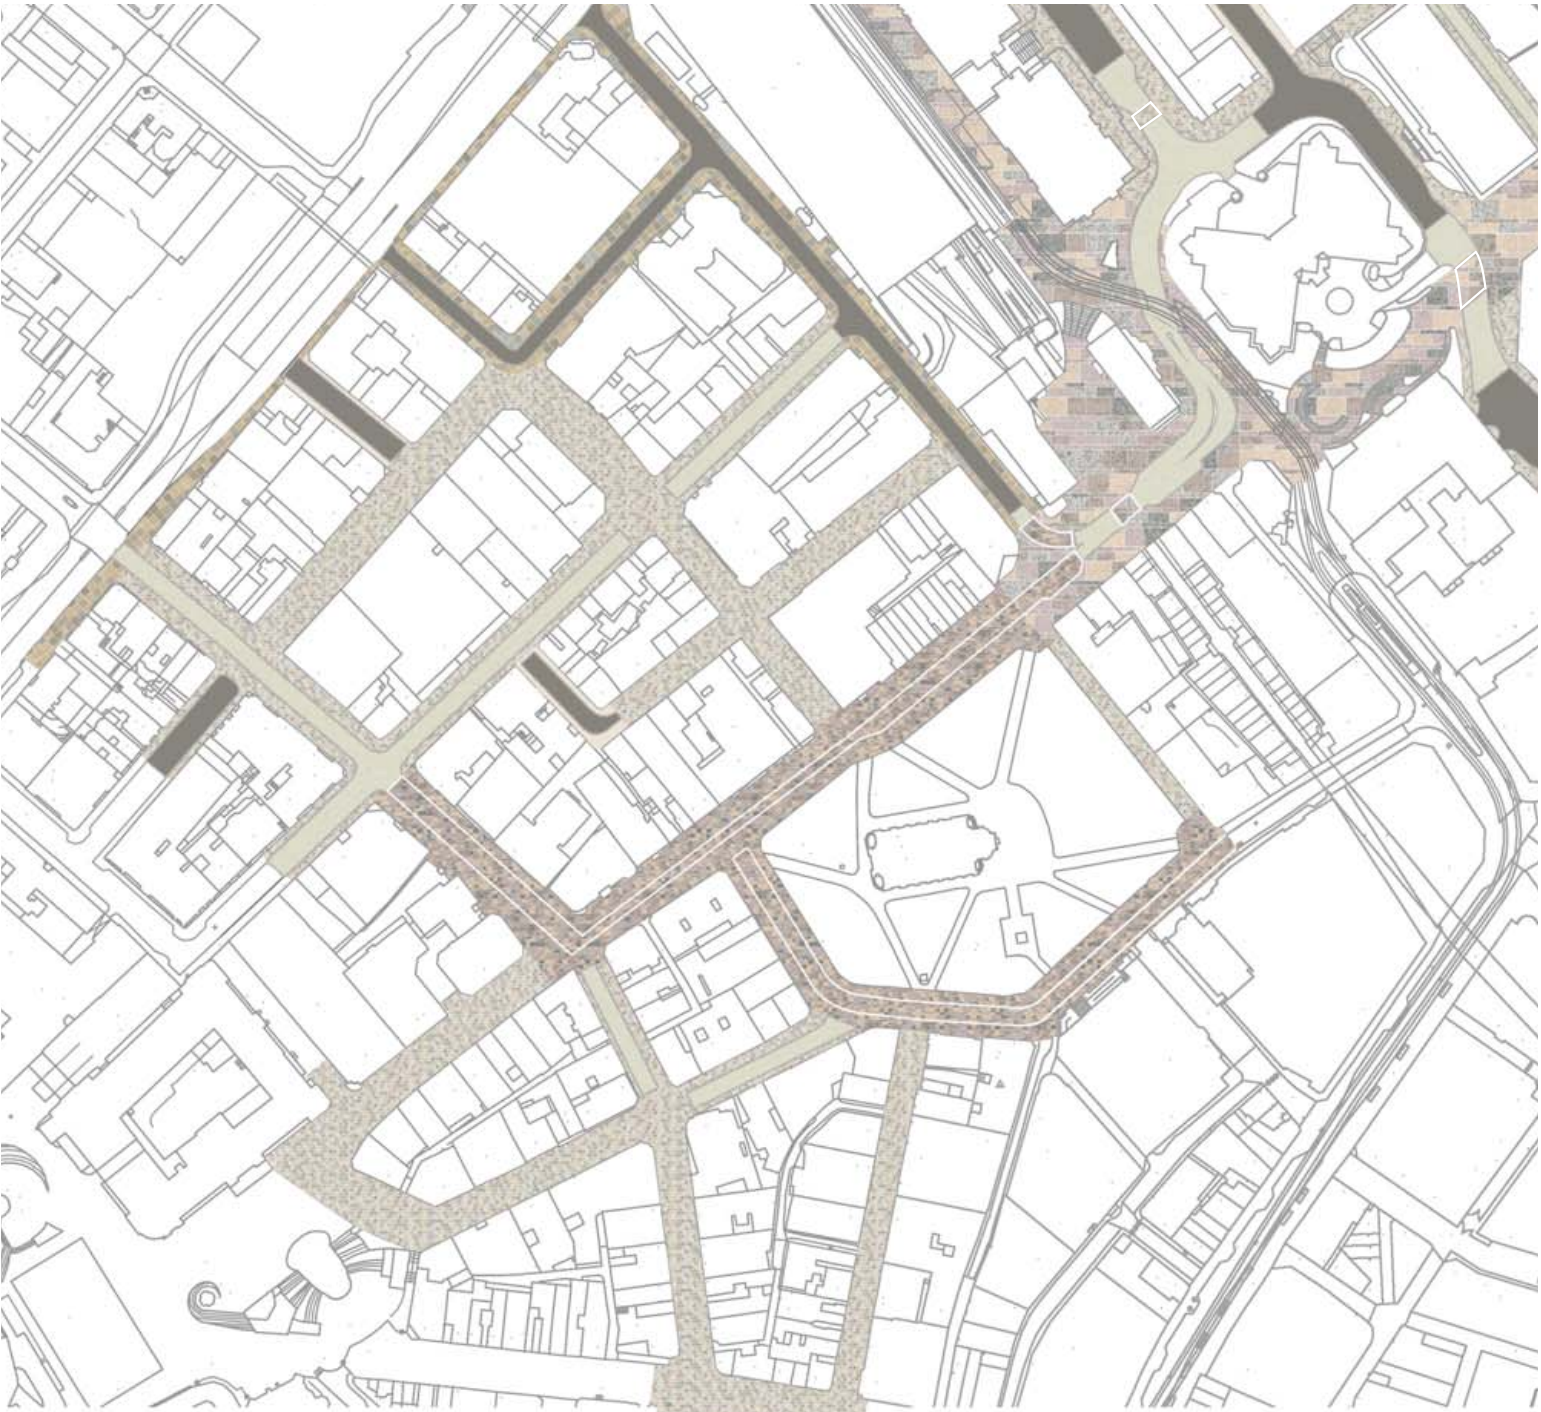

Process: Technical Parameters

Key:

- City Square - Pedestrian Priority
- City Place - Level with Segregation
- Local Place - Level Pedestrian Priority
- Local Street, Access Street and Quiet Street - 65mm Kerb

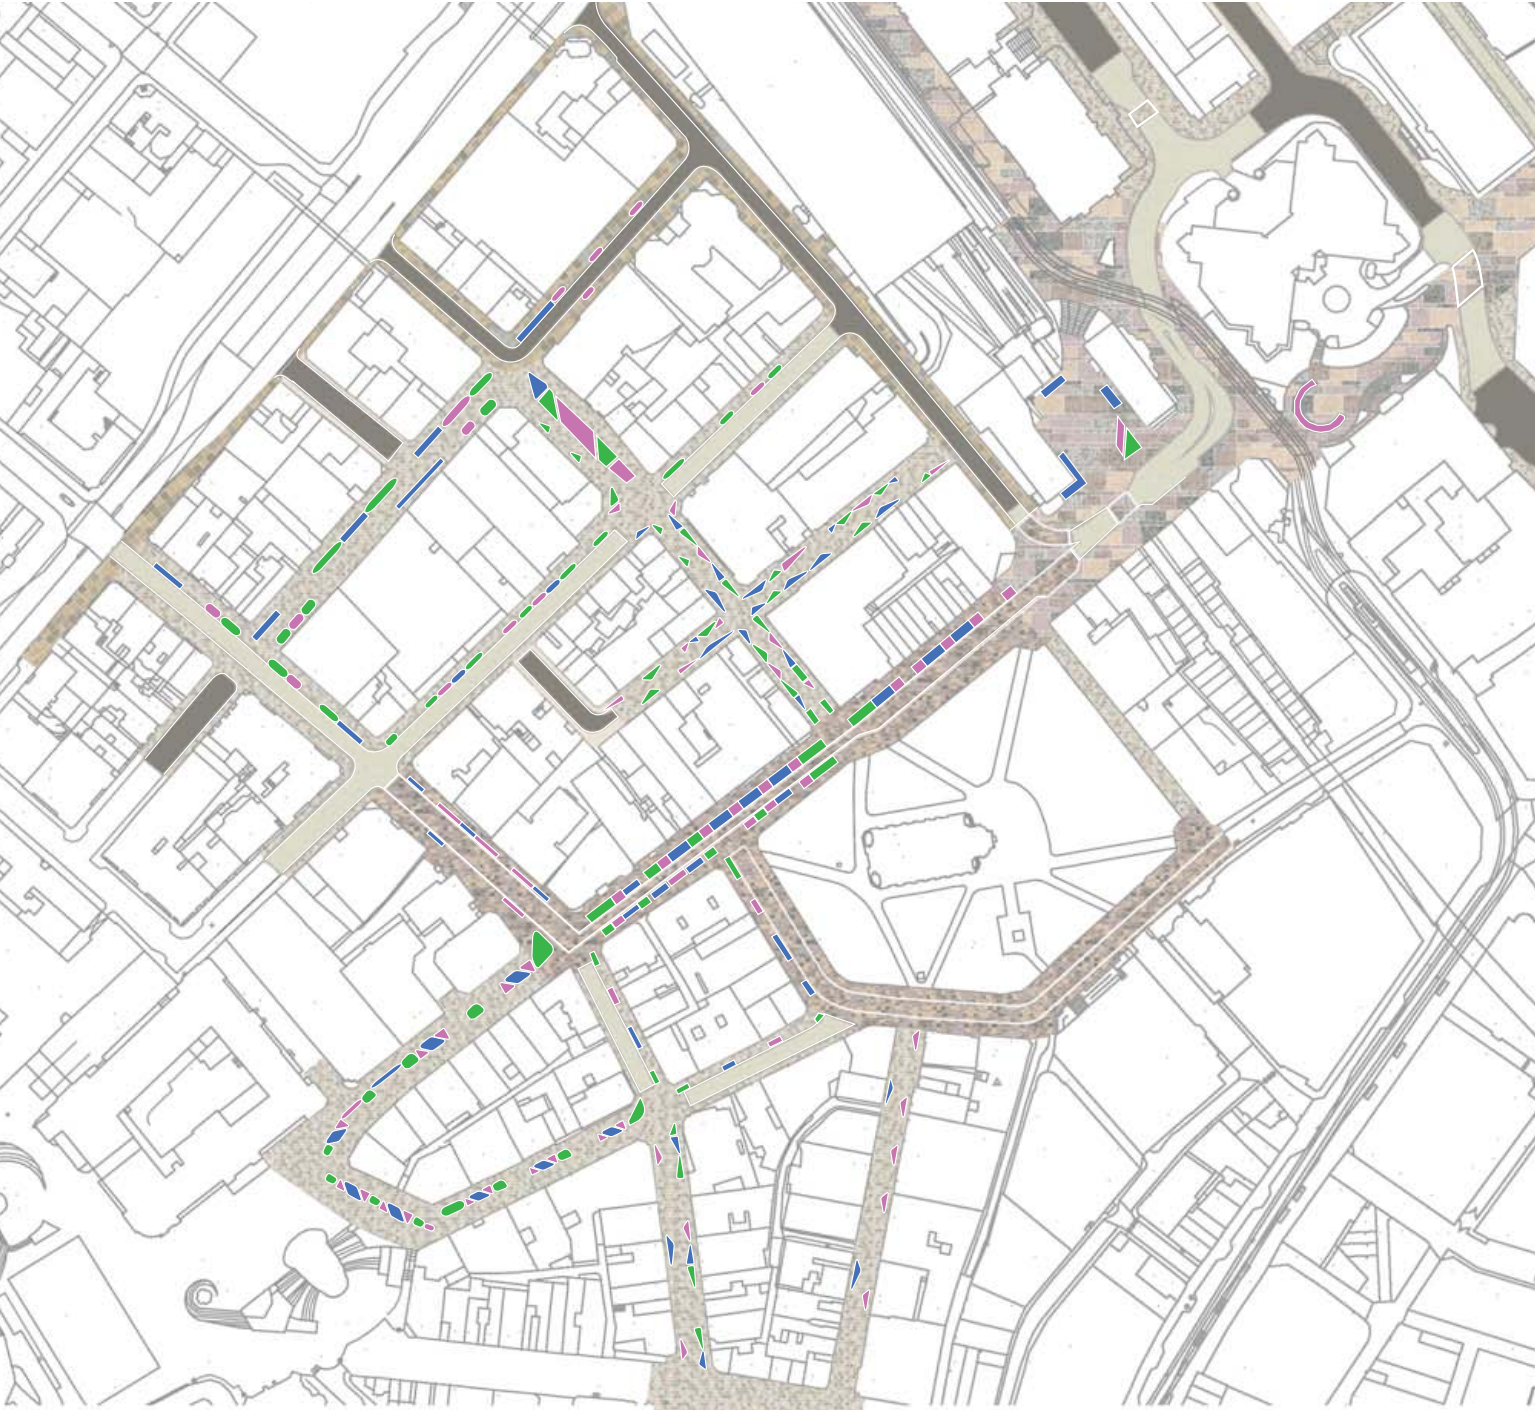

Process: Materiality

Key:

- City Square - Pedestrian Priority
- City Place - Level with Segregation
- Local Place - Level Pedestrian Priority
- Local City Street - 65mm kerb/high place
- Access Street - 65mm kerb/high link
- Quiet Street - 65mm kerb
- City Square/Local City Street - 65mm kerb with Buff Tarmac

Process: Street Scene Components

- Key:**
- City Seating/furniture
 - City Greening
 - Spill-out opportunity

Process: Proposed Primary GI

- Key:**
- Existing Trees
 - Existing Vegetation
 - Primary proposed trees

Process: Proposed Secondary GI

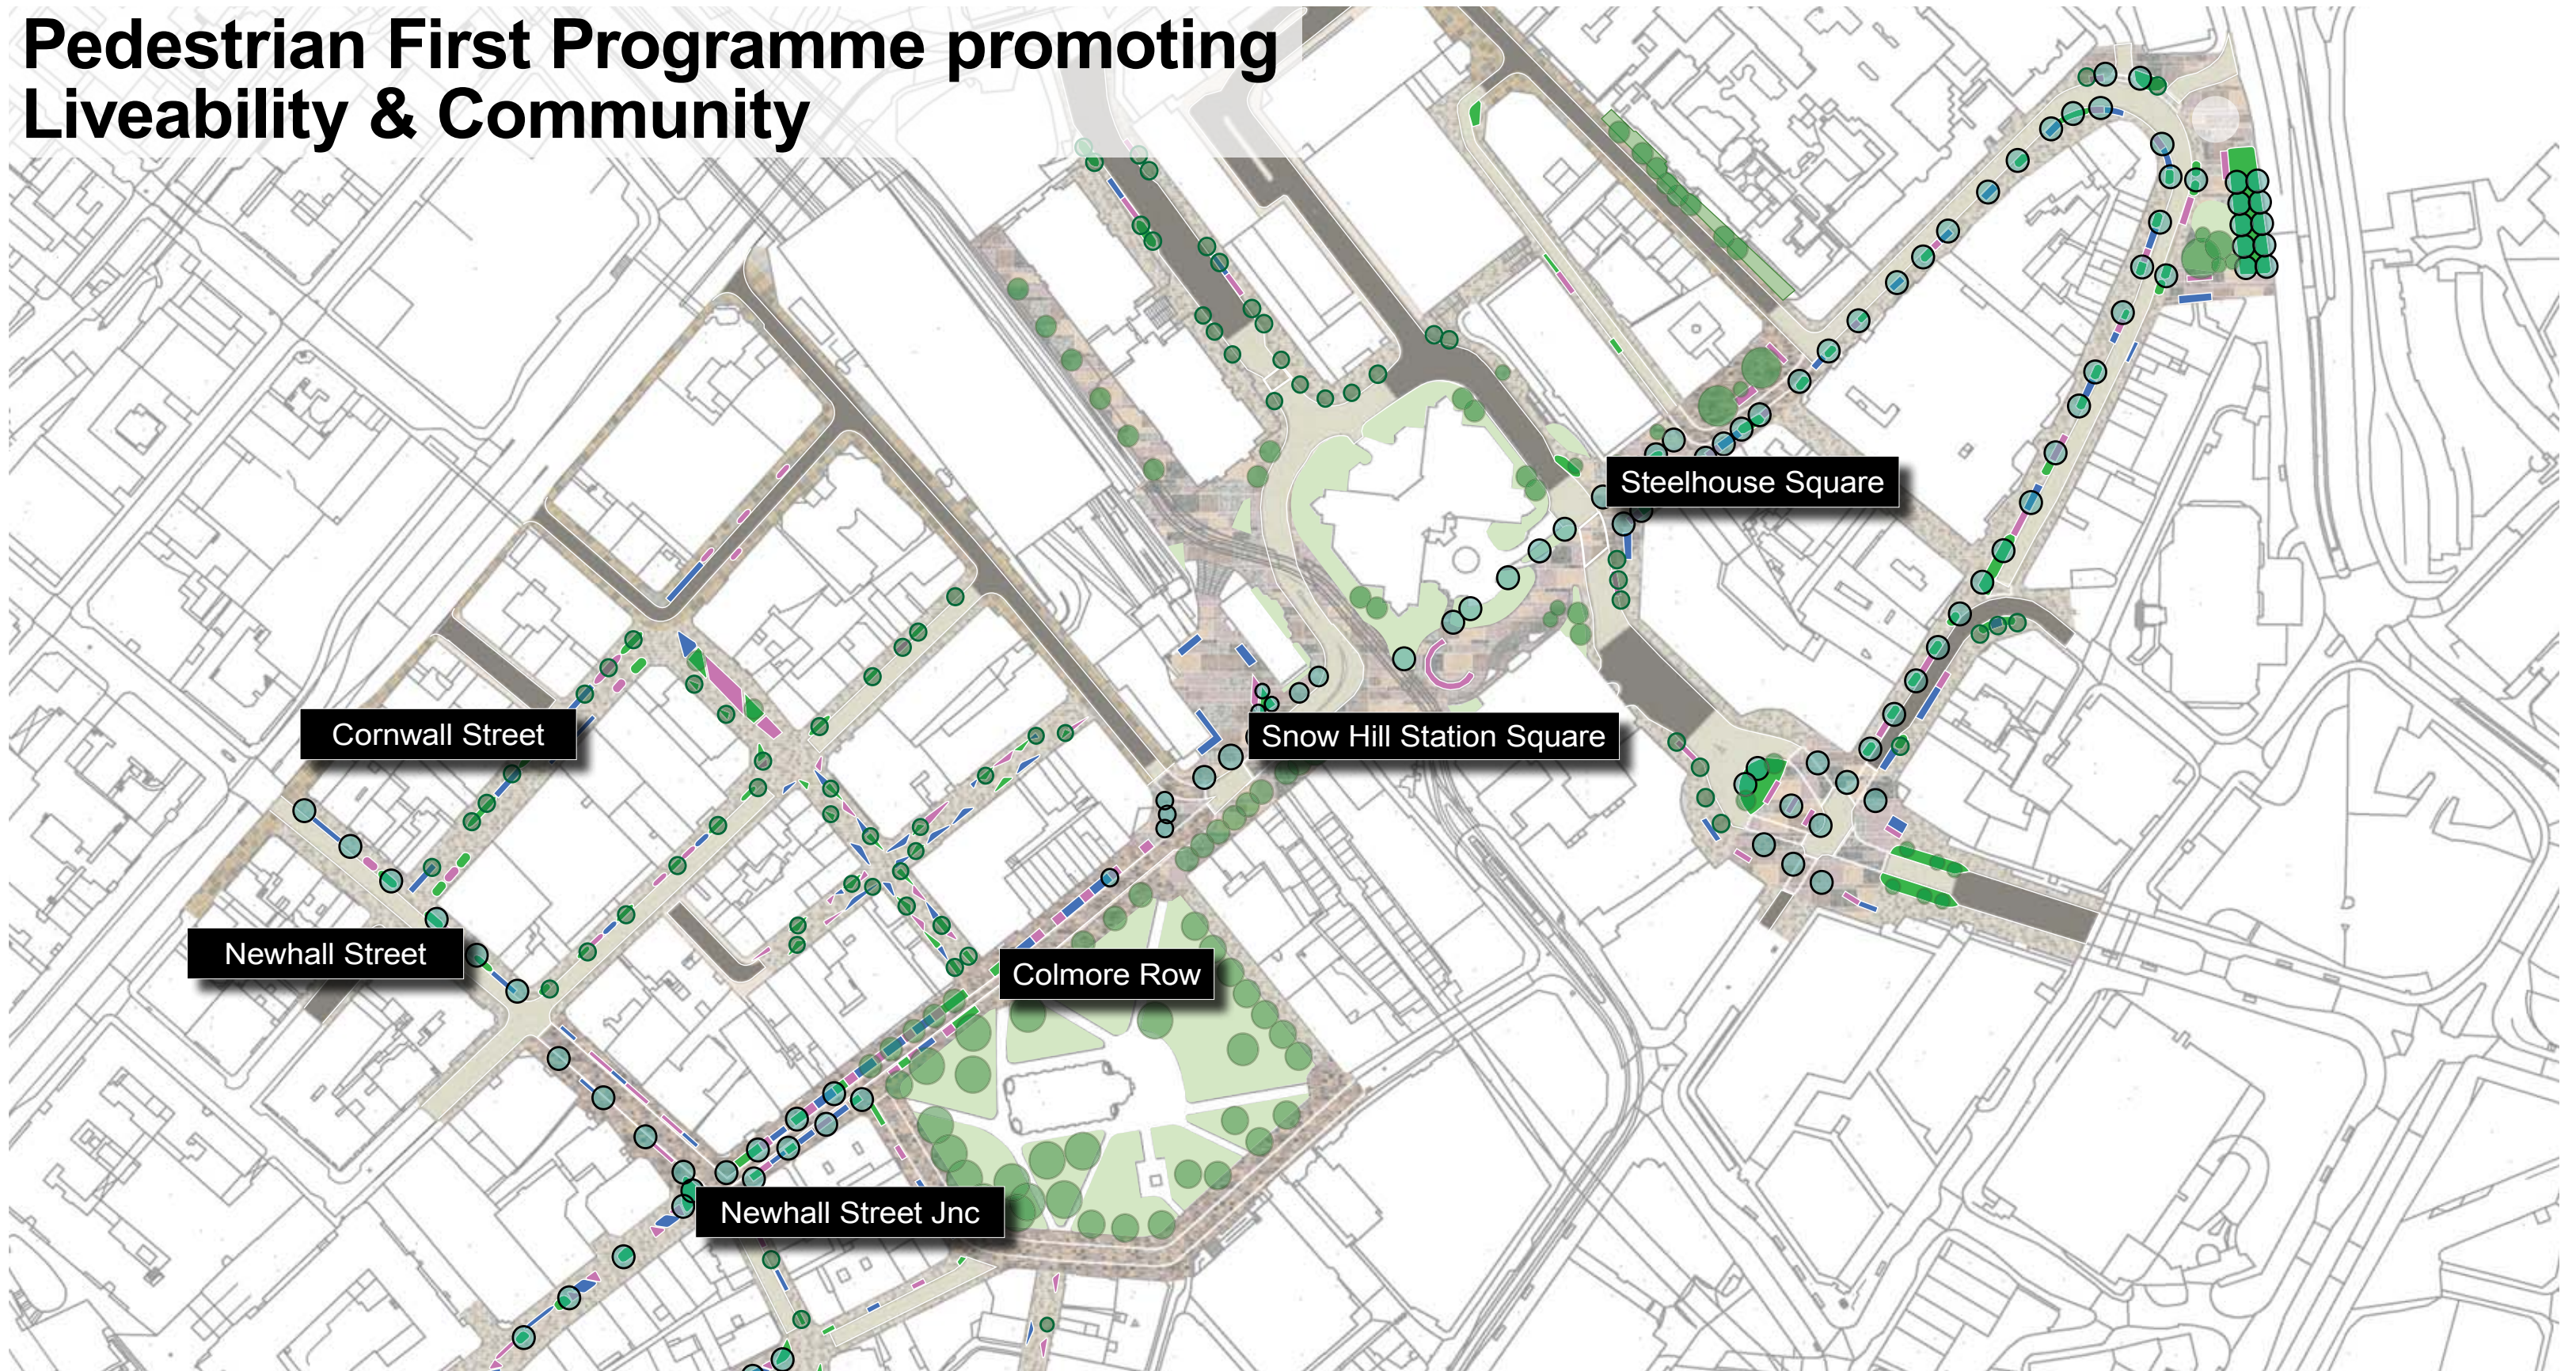

- Key:**
- Existing Trees
 - Existing Vegetation
 - Primary proposed trees
 - Secondary proposed trees

Spatial Masterplan

Pedestrian First Programme promoting Liveability & Community

Connect People

- **Pedestrian First.**
- **Public Realm with purpose.**
- **Spaces for sitting.**
- **Human Interaction.**
- **Combat Social Isolation.**

Promote Active Travel

- **Easiest option to stay healthy.**
- **Encourage physical activities.**
- **Activity releases endorphins.**

Promote Active Minds

- **Vibrant Spaces.**
- **Visually Stimulate.**
- **Change across day and season.**
- **Kindle curiosity.**
- **Encourage exploring.**

Promote Occupation

- Support activation of the public realm.
- Fill streets with people.

Promote Community

- **Create conditions for smiling at strangers.**

Creating
Places.
Together.
